## Sponsors

### Headline Sponsors

#### Leidos

 Leidos is a Fortune 500® information technology, engineering, and science solutions and services leader. In the UK, Leidos has more than 1,200 employees servicing clients such as the Home Office, Scottish Government and other government departments.

In Scotland we are one of the largest technology companies with more than 300 employees providing innovative technologies, advanced solutions, and world-class services to customers in devolved and central government. We invest in our Scottish based workforce to ensure we have the necessary skills to partners with our clients' needs. We work in partnership with Glasgow, Strathclyde and Napier universities on their Graduate Apprenticeship schemes focusing on software engineering, business management and cyber security.

#### Sponsor

### Improvement Service

 The Improvement Service (IS) is the national improvement organisation for local government in Scotland. Our purpose is to help councils and their partners to improve the health, quality of life and opportunities of all people in Scotland through community leadership, strong local governance and the delivery of high quality, efficient local services.

#### SCVO

The Scottish Council for Voluntary Organisations (SCVO) is the national body for Scotland's charities, voluntary organisations and social enterprises. We have 1400 members who range from individuals and grassroots groups, to Scotland-wide organisations and intermediary bodies. SCVO delivers services which help organisations across the country continue to do what they do best. Goodmoves is the recruitment advertising and careers hub for the third sector in Scotland and offers a comprehensive recruitment advertising service.

## LumiraDX

At LumiraDx, we make diagnostic-led care simpler and more accessible with smarter connected diagnostics and diagnostic-led care solutions, to enable better outcomes: better health, better experiences and better value.

The company launched the LumiraDx Platform in 2018 - an innovative, next generation point of care diagnostic system that combines a small, portable Instrument, advanced low-cost Test Strip and seamless digital connectivity. Proprietary technology enables it to deliver performance referenced to laboratory standard assays, while being simple and easy to use. LumiraDx Tests are produced on a bespoke, high-throughput manufacturing line to deliver precise microfluidic test strips which use small clinical samples, including capillary blood.

The LumiraDx SARS-CoV-2 Ag Test is designed to be used in health care settings to provide an aid to rapid diagnosis of COVID-19. The test uses either a nasal or nasal pharyngeal swab specimen from individuals at risk of, or with symptoms of, COVID-19 within the first 12 days of symptom onset. Clinical studies were performed at 6 sites across the US and UK with 257 subjects and demonstrated a 97.6% positive agreement and 96.6% negative agreement with RT-PCR

## XMA

Our purpose is simple. To deliver IT solutions which enable customers to evolve and transform the way they work.

By understanding customer goals and expectations, we apply the right balance of compute, datacentre and print technologies, to empower connectivity, mobility, security and collaboration across the whole of the public sector. As a supplier on Scottish Government national frameworks, we fully understand and embrace current initiatives to drive digital transformation to help deliver economic growth, improve public services and prepare young learners for the future workplace.
